

Back-end developer

Experience in current position: 7 years

Summary

I am a back-end web developer with 7 years of experience. I am eager to work with a growth-oriented and responsible organization that will enable me to execute my educational abilities through my dynamic performance and benefit my skill. I worked with plenty of different websites, creating, updating, and maintaining their code. In my position, I learned to rapidly adapt to new technologies and custom frameworks to successfully fulfill my client's requests.

Projects

NDA	
Position	Backend developer
Description	An older electronics shop that required a complete backend overhaul to remove its outdated core systems in API.
Architecture	Large Laravel backend with API for frontend/admin panel.
Project period	November 2024 - February 2025
Technology stack	Laravel, php, composer, MySQL, eloquent, HTML/CSS, JS.

NDA	
Position	Backend developer
Description	A large electronics shop with a complicated product/categories management system. Automated product import/export tool to external API.
Architecture	Large Laravel backend with API for frontend/admin panel.
Project period	August 2024 - February 2025
Technology stack	Laravel, php, composer, MySQL, eloquent, HTML/CSS, JS.

NDA	
Position	Backend developer
Description	An API for quick product information handling that functions as a central hub for multiple stores and projects.
Architecture	FastAPI API backend.
Project period	May 2024 - August 2024
Technology stack	FastAPI, python, HTML/CSS, JS

NDA	
Position	Full-Stack developer
Description	An international electronics shop and client administration tool.
Architecture	Laravel backend with API and angular frontend/admin panel.
Project period	May 2024
Technology stack	Laravel, php, composer, MySQL, eloquent, HTML/CSS, JS, Angular, Typescript

NDA	
-----	--

Position	Backend developer
Description	API for automated mobile phone scanning and condition analyzing tool and its related frontend and admin panel
Architecture	Laravel backend and API.
Project period	February 2024 - June 2024
Technology stack	Laravel, php, composer, MySQL, eloquent, HTML/CSS, JS

NDA	
Position	Full-Stack developer
Description	A medium-sized electronic appliances shop for cleaning.
Architecture	Laravel backend with API and angular frontend/admin panel.
Project period	January 2024 - February 2024
Technology stack	Laravel, php, composer, MySQL, eloquent, HTML/CSS, JS, Angular, Typescript

WebParking	
Position	Full-Stack developer
Description	A large and somewhat old management system to keep track of multitude of parking spaces, cars and their owners, fines and payments.
Architecture	Heavily modified Yii2 framework with Vue frontend added in multiple views.
Project period	June 2023 - January 2024
Technology stack	Yii2, php, composer, MySQL, HTML/CSS, JS, VueJS

NDA	
Position	Back-end developer
Description	Admin panel and API for mobile app, designed to provide users with different courses and keeping track of their emotional health.
Architecture	Laravel based API and admin panel.
Project period	March 2023 - May 2023
Technology stack	Laravel, php, composer, MySQL, Entity Framework, HTML/CSS.

NDA	
Position	Back-end developer (partually full-stack)

Description	A large custom-made framework for website constructor. Main responsibilities were creation and support for plugins, based on that custom framework.
Architecture	Fully custom framework for site constructor based on php and twig.
Project period	August 2022 - February 2023
Technology stack	Twig, php, composer, MySQL, HTML/CSS, JS, Type Script

Plentymarket widgets	
Position	Back-end developer
Description	Updating and maintaining a multisite project featuring a separated yet interconnected web app, landing site, and API. Had to work with a multitude of backend endpoints, and add a proper translation system for a multilanguage feature of the system and some payment systems.
Architecture	- Based on Plantymarket engine, which is built on PHP and twig templates
Project period	September 2021 - August 2022
Technology stack	Php, composer, Bootstrap, Ajax, jQuery, HTML/CSS, Yii2, custom APIs.

NDA	
Position	Back-end developer
Description	Limited update and maintenance of a large WordPress app with heavily customized plugins and outdated system
Architecture	A large WordPress web app, full of outdated custom plugins
Project period	May 2021 - August 2021
Technology stack	Php, composer, Bootstrap, Ajax, jQuery, HTML/CSS, WordPress, custom WordPress plugins.

NDA	
Position	Back-end developer
Description	Creation and maintaining of Laravel backend for a web app that features a custom registration that has specific and dynamically changeable rules (from admin panel) about allowed data in specific fields.
Architecture	Laravel web app
Project period	April 2021 - May 2021
Technology stack	Php, composer, Bootstrap, Ajax, jQuery, HTML/CSS, Blade, Laravel, JavaScript, MySQL.

NDA	
-----	--

Position	Back-end developer
Description	Updating and maintaining employee tracking app based on Yii2 and featuring the use of Hubstaff API integration.
Architecture	Yii2 web app with some outside API integrations
Project period	January 2021 - April 2021
Technology stack	Php, composer, Bootstrap, Ajax, jQuery, HTML/CSS, Blade, Laravel, JavaScript, MySQL, GraphQL

NDA	
Position	Back-end developer
Description	Updating and maintaining a DRM backend for a service providing web app that contains a vast user-to-user interaction system, statistics data collection, and processing system and utilizes CKEditor to implement limited new pages creation system right from admin panel. Due to project specifics, had to use a custom build of CKEditor.
Architecture	Django Rest Framework backend for React frontend.
Project period	November 2020 - January 2021
Technology stack	Python, DRM (Django Rest Framework), Bootstrap, Ajax, jQuery, HTML/CSS, MySQL, CKEditor

NDA	
Position	Back-end developer
Description	Updating, maintaining and partial rework of a service provider website that has a large database directly tied in with Google Maps using Ajax.
Architecture	Webapp created from a combination of Yii2 and bits of Laravel
Project period	September 2020 - November 2020
Technology stack	Php, composer, Bootstrap, Ajax, jQuery, HTML/CSS, Blade, Laravel, JavaScript, MySQL, Yii2, Symfony

NDA	
Position	Back-end developer
Description	Updating and maintaining a large invoicing project that maintains a complicated data processing for a large number of different clients, presents data in different formats for easy work with export/import functions and incorporates a connection to other large services with APIs. Also, the creation of handwritten functionality for tracking and fixing/resending API requests.
Architecture	Custom Framework based on Codeigniter
Project period	January 2020 - September 2020

Technology stack	Php, composer, Bootstrap, Ajax, jQuery, HTML/CSS, Blade, Codeigniter, MySQL, OAuth
------------------	--

NDA	
Position	Back-end developer
Description	Creation of a small demonstration web app for work with Google Maps and its icons, focusing on Ajax for seamless work.
Architecture	Basic Laravel app
Project period	April 2020
Technology stack	Laravel, PHP, composer, Bootstrap, Ajax, jQuery, HTML/CSS, Google Maps API

NDA	
Position	Back-end developer
Description	Partial update to existing Angular frontend of a data collecting website with very large media content in all data rows. Upgrade to Laravel backend with the addition of complicated workers to automatically download, decompress and process to the database multi-gigabyte data dumps.
Architecture	Custom Framework with Angular frontend and Laravel backend
Project period	January 2020 - April 2020
Technology stack	Laravel, PHP, composer, MySQL, Eloquent models, Angular, Bootstrap, Ajax, jQuery, HTML/CSS/SCSS

NDA	
Position	Back-end developer
Description	Creation of the backend for a browser multiplayer educational game. Full MVC with complicated admin panel and statistics collection on the dashboard, plus, connection to existing node environment to add multiplayer possibilities.
Architecture	Custom web app with separated front and backend
Project period	January 2020 - March 2020
Technology stack	Laravel, php, composer, MySQL, Eloquent models, HTML/CSS, Symfony

NDA	
Position	Back-end developer
Description	Large upgrade for administration panel functionality and addition of Azure Storage.
Architecture	Custom .NET MVC
Project period	September 2018 - December 2019

Technology stack	.NET MVC, Entity Framework 6.0, MySQL, Microsoft Azure Storage
------------------	--

Career History

Company	UFO Engineering
Duration	August 2022 - till now
Technologies	PHP, HTML, CSS, JS, JQuery/AJAX, Laravel.
