

Ivan

- **Flutter** Mobile Developer, for about **2 years**. Stack: Firebase (messaging, analytics, auth, functions, firestore), GetX(State Management, RxDart, DI, Localization, Theme), Floor, Dio, App Links, Huawei Push, Riverpod, BLoC, Cubit.
- **Frontend** Developer **Vue.js** (Quasar, TypeScript, Axios, Pinia, Tailwind, I18n). Experience in creating **Admin Panels**.
- **IT School Samsung** course instructor (**Android SDK**, Java/Kotlin, MVVM, MVP, Koin, OOP, SOLID, KMM, REST API).
- Curator of projects of different levels of complexity for pupils and students.
- Experience in **Spring Boot**(Spring Security, Hibernate), **Ktor backend**, MySQL, MongoDB, Docker.

Technical Skills:

- Dart, Flutter
- Java 8/11/17, Kotlin, Android SDK, KMM, Ktor, MVVM, Koin
- JS/TS, Vue.js, Quasar
- Spring/Hibernate, Ktor
- MySQL/Postgres, MongoDB
- Teaching, Problem-solving, Project Creation

Projects:

Flutter Developer

- Flutter, Dart
GetX, Floor, Dio
Firebase Cloud Messaging, Huawei Push
Deep links, App links, Localization
Beta-testing, Version changelogs, Flavors, App Store, Google Play Store, App Gallery
Worked on app testing and release on Google Play, App Store, App Gallery

Flutter Developer

- Flutter, Dart
Riverpod, Floor, Dio, Hive, GoRouter
Firebase (Cloud Messaging, Auth, Functions, Crashlytics, Storage, Firestore, Dynamic links)
Deep links, App links, Localization, Chat messenger
Beta-testing, Version changelogs, Flavors, App Store, Google Play Store
Library development and supporting
Worked on app testing and release on Google Play, App Store

Frontend Developer

- Vue.js, TypeScript
Quasar, Axios, Pinia, Tailwind
Project support: *alumniclub.mephi.ru*
Development of the admin panel: *academy.mephi.ru*

Backend Developer

- Spring Boot, Ktor
Libraries: Hibernate, JUnit, Mockito, Firebase Admin, Spring (Validation, Security, Cache)
Database: MySQL
Tools: Docker, Swagger
Project support: *alumniclub.mephi.ru*

Freelance

- Android (MVVM, Scheduler, Notifications): AntiLeaker
Landing (Vue.js, TypeScript): biooil.ru

Teaching & Content Creation Experience

Project creator

Hyperskill - Online Nov 2021 - Jul 2022

Creating a project on the Ktor framework.

Supervising, and reviewing topics. *Hyperskill Project: HotKitchen*

Android Java Teacher

Had been involved in teaching students and helping them to develop skills in Java & Android

Led lectures and master classes on Android Development

Languages: English (B2), Russian (native)
