

Lev

Full Stack Kotlin/Java Developer with 13+ years of experience.

Israel

Summary

Experienced full stack developer with 13+ years in building complex systems across backend, frontend, and infrastructure. Strong at combining technologies to solve non-trivial problems. Self-learner with an analytical mindset and proactive approach. Passionate about creating robust, maintainable software. Comfortable working fully remotely, both independently and as part of a team. Looking for a full-time developer role where I can apply my skills and continue growing.

Skills

Kotlin/Java: Spring, Netty, ktor, Gradle (KTS)

JavaScript/TypeScript: Vue.js, Openlayers, JQuery, ExtJS

Python: Django

Databases: SQL/NoSQL, MongoDB, PostgreSQL, MySQL, MS SQL, CouchDB

AI & Tools: AI-assisted development, prompt engineering, Model Context Protocol (MCP), advanced use of AI-powered tools (ChatGPT Desktop, Claude Code, Cursor, JetBrains)
