

Siarhei

Architect | Lead .Net Full stack (13 years)

I'm a skillful software engineer with hands-on experience in the development of complex and dynamic Web applications, using the latest .NET technologies. I'm profoundly knowledgeable about Web API, AJAX, JSON, REST, and other programming mechanisms. I have successfully implemented innovative solutions, applying ASP.NET MVC, Core, Angular 13, and other common frameworks.

My logical thinking, constant professional development, and drive for cutting-edge technologies allow me to grow into a real expert in software development. My attention to detail lets me deliver any multi-purpose and large-scale project with almost zero deficiencies.
