

Vadzim

Chief Technology Officer @ PROXYONE | Ruby/Elixir, Kubernetes, Docker, AWS, Cloud | iGaming, Proxies, Logistic, IoT | Ruby/Elixir Developer who brings ideas into reality

Warsaw, Mazowieckie, Poland

Summary

Ruby / Elixir developer, DevOps engineer tries to create cool startups and make the world a better place.

As a seasoned professional with a diverse skill set and a passion for new technologies, I have consistently proven myself as a valuable asset to the organizations I have worked with. My track record of success includes more than 15 successfully completed projects, and I have a reputation for being a solutions-oriented problem solver who can effectively navigate complex challenges and drive projects to successful completion.

In addition to my technical expertise, I am known for my strong leadership skills and ability to work effectively as part of a team. I have a natural talent for building and maintaining relationships, and I am always looking for ways to collaborate and add value to the people and projects I am involved with.

I am excited to connect with others on LinkedIn and explore new opportunities to grow and succeed in my career. Whether you are looking for a dynamic team player to take on a new challenge or simply want to connect and exchange ideas, I am always open to discussing potential collaborations and ways we can work together to achieve success.
