

Vladislav

Software Engineer with 6 years of hands-on experience. Full-stack development and UI/UX design: from the scalable, optimized Rust back-end to the JavaScript SPA/MPA and SwiftUI/UIKit on mobile. Took part in all aspects of product design and engineering, from the marketing, business investigation to the MVPs for start-ups, pitch-decks, mock-ups. Led ~12 people.

Languages: English, Russian, Ukrainian, Czech

Skills

Tech Skills

- **Languages:** Rust, JS, Swift, Go, Python, Kotlin, Dart
 - **Server-side:** Axum, Tower, Gin, Docker, Django, Minio, gRPC
 - **Client-side:** NextJS, SvelteKit, Tauri
 - **Mobile:** UIKit / SwiftUI, Jetpack Compose, Flutter
 - **Storage:** Postgres, Redis, YDB, Mongo, Cockroach
 - **Cloud:** AWS (RDS, EC2, S3, Cognito, IAM), Hetzner, Digital Ocean, Heroku
 - **Architecture:** SPAs, MPAs, MVVM, MVC, MVP, layered systems, self-contained systems
 - **Blockchain:** NEAR Protocol (near api js (calling contracts, chunking, polyfill, authorisation/authentication, wallet permission), near rust (writing smart-contracts, storage, oracle, multisender, transactions)), Substrate (building basic blockchain with the pallets), Ethereum (solidity basics)
-

Design Skills

- **UI:** Figma, Sketch, Photoshop, Procreate, Affinity
- **Web:** CSS, HTML
- **UX:** CJM, User Flow, User Interviews, A/B

Management Skills

- Leading a product team 5-12 people
- Competitor analysis, target audience, participant observation
- Mentoring team members

- Estimation, planning and delivery management
- Bridging the gap between business and product team
- Pitch-deck, marketing strategy, financial planning, hiring

Experience

NDA (contractor), 2023 — now, remote

- Port web app (DEX) > Desktop (Mac, Linux, Windows)
- Rebuild an iOS app
- BFF (processing data)

TechStack: Tauri (Vue, Rust (multiwindow app)), gRPC (Tonic, Mongo), SwiftUI (near api swift)

Yo Digital Agency (Chief Operating Officer), 2016 — 2022, Kyiv

- Prototyping, wireframing
 - Designing and developing complex digital products
 - User interviews
 - Brand strategies
 - Delivery management: estimation, planning, implementation, deployment, operation, monitoring
 - Working closely with product owners and stakeholders
 - Improving internal processes
-

- Food delivery created from scratch: design, mobile, server, sites (**ninjawok.com.ua**, **ninjasushi.com.ua**)
- Business development, contracts, key partnership (**bpa.com.ua**, **toremfinance.com**, **southart.com.ua**, **lituta.com.ua**)
- Modernized legacy system (**energoatom.com.ua**)

TechStack: ExpressJS (server), Vue / React / Vanilla JS (client), WordPress (constructor), Sketch (UI / UX), Tauri, Near (front, back)

usenum.com (managing partner), 2023 - still closed alpha

- **Back-end:** Go (Gin) -> Axum (Rust)
- **Storage:** Postgres -> YDB -> Cockroach
- **Desktop:** Tauri (Rust + Svelte)
- **Design:** Figma
- **Blockchain:** NEAR

2event.com / Consulting (Full-stack developer), 2019 — 2021, Lviv

- Designed and developed a chat system
- Helped to hire (designer, copywriter, iOS developer, Vue developer)
- More effective communication model (+40% retention rate)
- Bootstrapped new APIs
- Designed and developed [Sport management system, CRM, Event management system]

TechStack: UIKit / SwiftUI, RxSwift / Combine, Kingfisher, NestJS, NextJS, socket.io, Go (Gin), Mongo, Rust (Actix, Diesel)

Scala Management (Data Analysis), 2016 — 2018, Kyiv

- Hiring, building and leading start-up teams
- Designed, developed >10 information products
- Built data models to generate insights for marketing team
- Used scrapping and SQL to get insights for marketing initiatives

TechStack: NumPy, Keras, Beautiful Soup, Django, Postgres, React, Redux
